Strengthen your IP Video Leadership – Count on Motorola’s VIP2202 to help you deliver innovative, advanced IP HDTV experiences to your premium customers.

The Motorola Advanced IP High-Definition Set-top (model VIP2202) is a compact, superior, HDTV IP set-top. The Motorola VIP2202 allow operators to expand their subscriber base, increase customer satisfaction, and grow their average revenue per user by offering their consumers rich home entertainment experiences with crystal clear HD picture and surround sound, with the added flexibility of watching on-demand services whenever they want.

**Highlights**

- Easy to use and install
  - Connects to high definition or standard definition TVs
- Offers superior high definition video and all digital sound quality
  - Supports Standard Definition and High Definition (SD/HD) high-quality digital video
  - Dolby® Digital AC3 and AAC digital audio
- Two-way IP capabilities to support multiple interactive applications, such as broadcast TV, time-shifted TV, and multicast
- Feature-rich interactive applications and graphics
- Digital TV functionality, including interactive electronic program guide (EPG) and video on demand (VOD)
- Digital video scaling and hardware support for multiple picture-in-picture (PiP) – up to 16 PIPs in a Mosaic-style view

The VIP2202 is part of Motorola’s comprehensive, secure, flexible, reliable, scalable, and open end-to-end IPTV Solution Suite—enabling operators to effectively compete with the incumbent cable operator, while bringing down the cost of delivering compelling next-gen HD IP video experiences. This high performing platform will allow the operator to roll out additional revenue generating services throughout the service life, without sacrificing the on-screen consumer experience. With deployment of the VIP2202 operators will retain high-value customers and grow their subscriber base, increase average revenue per user (ARPU), lower capital spending, all while improving customer loyalty and retention.

With the VIP2202, Motorola redefines the IP Video experience, enabling operators to accelerate their time to revenue, while providing their subscribers with quality, next-generation IPTV. The VIP2202 allows operators to deliver a myriad of differentiated offerings—meeting the growing consumer demand for personalized video content and delivery options—while balancing the operator’s need to closely manage their capital investment and operating expenses. The VIP2202 offers subscribers the latest advanced IPTV experiences and features, including,
VIP2202
Motorola Advanced IP High-Definition Set-top

Highlights
- Interactive IP set-top - supports all the traditional set-top features, including Electronic Program Guides (EPG) and Video On Demand (VOD) as well as many web/IP-delivered applications, using rich advanced graphics
- Support for secure Digital Rights Management (DRM) with integrated Secure Processor
- Supports High-Definition Multimedia Interface™ (HDMI™) connectivity with High-Bandwidth Digital Content Protection (HDCP)
- Secure - Macrovision® and CGMS-A analog copy protection schemes
- Supports multiple IR protocols – Universal Remote Control friendly
- Supports multiple video codecs for optimum deployment flexibility - MPEG-4 AVC (H.264), MPEG-2 and VC-1
- Environmentally friendly - ENERGY STAR® Tier 1 qualified, ENERGY STAR® Tier 2 ready and RoHS compliant

Technical Specifications

Video Interfaces
- High definition TV: HDMI with HDCP support, Component video (Y Pb Pr)
- Standard definition TV: S-Video, Composite video (2 sets), Channel ¾ RF remod
- Video Codecs: MPEG-2, MPEG-4 AVC (H.264), VC-1, WMV

Audio
- Audio Interfaces: Optical S/PDIF, L/R RCA stereo audio connectors (2 pairs)
- Audio Codecs: Dolby Digital 5.1, Dolby Digital Plus, MPEG-1 (MUSICAM), MP3, AAC LC, HE-AAC, WMA

Other Interfaces
- IR receiver for remote: RC5, RCMM, and NEC protocols
- Ethernet: 10/100Base-T Ethernet (RJ-45)
- Power input: External power supply
- Optional: HomePNA v3.1 interface
- Optional: 802.11n Wi-Fi® access point

Software
- Operating system: Windows® CE version 5.0, LINUX®
- Streaming protocols: RTSP, RTP/RTCP
- Software upgrade: Remote software download/upgrade
- Copy protection: Macrovision 7.1, CGMS-A, HDCP
- User interface: Electronic Programming Guide (EPG)

Video Resolution
- NTSC: 480i, 480p
- High definition: 720p, 1080i, 1080p

Processing
- CPU: 1,000 DMIPS
- DRAM: 256 MB standard (supports up to 512 MB)
- Flash: 64 MB standard (supports up to 128 MB)

Middleware
- Microsoft: Mediarrm middleware
- Alcatel: Media Manager middleware

Security
- Microsoft: Mediarrm DRM

Physical
- Dimensions: 2.2 in H x 10 in W x 7.8 in D (5.6cm x 25.4cm x 19.8cm)
- Weight: 2.95 lb (1.3 kg)
- Power: 95 to 130 VAC, 12 VDC
- Power consumption: 20 W max.
- Operating Temperature: 32 °F to 104 °F (0 °C to 40 °C)
- Operating Humidity: 8% to 95% (non-condensing)

Other
- Limited warranty: One year
- Compliance: UL listed (U.S. and Canada), RoHS, ENERGY STAR Tier 1, FCC Part 15, CSA, and IC

Wireless Interface (Optional)
- Compliance: IEEE 802.11n Draft 2.0
- Frequency Band: 5 GHz
- Antenna: 2x3 MIMO
- RF Power: 20 dBm
- PHY rate: up to 300 Mbps**
- Frame Aggregation: A-MPDU
- Coding: Convolutional, STBC
- Security: WEP, WPA, WPA2, 802.1X
- Setup: Support for Wi-Fi Protected Setup™ (WPS) Push Button Control (PBC)

** Actual throughput will be lower and vary depending on application and network environment
