

## Generate New Revenue with Hospitality and Bulk Accounts

IP to Analog & IP to QAM Solutions for Hotels, Nursing Homes, Hospitals and Schools

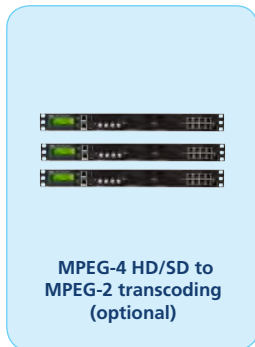

**TANGRAM**

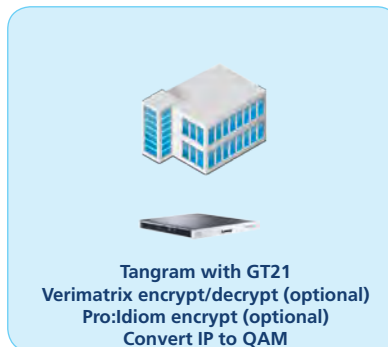

- Convert IP video to analog cable or QAM
- MPEG-2/4, HD/SD inputs
- Up to 36 QAM or analog outputs in 1RU
- Verimatrix decryption & encryption options
- Pro:Idiom encryption option

### HD/SD Digital Qam Video

*Video Headend*

*Hospitality Site*

*TV*

### SD Analog Video

A **WISI** Company

## Tangram GT01 6-Slot Chassis

### GT23 EdgeQAM Module

- Up to 6 QAM (Annex B – North America)
- High quality IP to QAM modulation
- EAS & PSIP virtual channel support
- High RF output Level, 111 dBµV
- 2 RF output ports plus test ports

### GT21 EdgeNTSC Module

- HD/SD, MPEG-2 and MPEG-4 H.264 inputs
- Up to 6 NTSC analog channel outputs
- 2 RF output ports plus test ports
- High RF output level, 111 dBµV
- High quality direct digital modulation

### GT41 IP Processing

- High density MPTS <-> SPTS gateway
- Verimatrix encrypt & decrypt options
- Capacity of up to 128 streams
- 850 Mb/s throughput

### DM17A Combiner

- 12:1 RF combiner
- Compact 1RU rack mount design
- High isolation and low insertion loss
- Front panel test port for easy monitoring

High Density

High Reliability

Easy-To-Use Web Interface

Hot Swappable

Low Power Consumption
