# OWN THE CONNECTED HOME

Amino is a world leading IPTV innovator and now offers a range of entertainment and home monitoring solutions designed to help you own the connected home.

# IPTV/OTT set-top box range

**LIVE HOME MEDIA CENTRE:** Extend and enhance your service offering with the **Live Home Media Centre**. Combining cutting edge user experiences, apps and seamless multiscreen capability – the **Live Home Media Centre** is designed to meet the rapid changes in the way people consume content.

Driven by 10 times the processing power of a standard set-top box, this single device helps you target and retain high value customers, reduce churn and increase ARPU by delivering valuable new services and engaging user experiences.

## Key features:

- Stunning user experiences delivered at lightning speed as the Intel® dual core ATOM™ processor introduces a world of advanced UX capabilities
- Enables operators to add new content, including OTT and apps, to drive new service revenues delivered via managed-IP networks or the open Internet
- Satisfies users' increasing demands to consume media across more screens in the home simultaneously
- More than 200 HTML5 apps optimised for TV, available from the Amino TV App Store, powered by Opera

# IPTV/OTT set-top box range

amino

aminet  
A140

## Aminet A140

**High Definition IPTV/OTT Set-Top Box (STB) with MPEG-2 and MPEG-4 Support**

### Key features

- “Carrier class” Wi-Fi capability - add a simple USB dongle for high quality HD content delivery around the home
- Trick play support and Pause Live TV - now viewers can conveniently pause and resume live TV. The tiny Amino Time Shift module plugs neatly into the USB port on the rear of the set-top box and can be shipped with the unit or as an after-market upgrade
- HTTP Live Streaming (HLS) with trick play and record - delivering a great uninterrupted PVR-like user experience even in low latency networks

aminet  
A129

## Aminet A129

**MPEG-2 and MPEG-4 Standard Definition IP-STB for Entry Level Deployments**

### Key features

- Single network and mini din connections
- Compatible with HD range
- Composite & component analog outputs
- Software reset button
- Accepts a multicast software image

aminet  
A540

## Aminet A540

**High definition IPTV/OTT set-top box (STB) with integral PVR and MPEG-2 and MPEG-4 support**

### Key features

- “Whole home” PVR capability - use the A540 to deliver content to multiple Aminet devices and TVs, adding value to your service offering
- “Carrier class” Wi-Fi capability - add a simple USB dongle for high quality HD content delivery around the home
- HTTP Live Streaming (HLS) with trick play and record - delivering a great uninterrupted PVR-like user experience even in low latency networks

aminet  
H140

## Aminet H140

**High Definition Set-Top Box for Guest Room Applications**

### Key Features

- HTML5 audio and video tags to support the H.264 codec in .flv and .mp4 formats
- Adaptive streaming technology is also available with HTTP live streaming support
- All STB functions can be controlled from a browser using the Amino JMACX system

# Value, innovation and insight – the Amino difference

amino

With over four million devices sold, our award-winning IPTV/OTT solutions are deployed worldwide by major global, regional and local operators and service providers. They rely on us for our deep IPTV technology expertise, global ecosystem partnerships and our proven deployment experience. Underpinning our quality IPTV solutions – recently acknowledged as global leader in price and performance – are a clear set of values:

- **Innovation:** with a number of industry “firsts” – and awards - we constantly seek new ways to develop and deliver powerful new IPTV solutions to our customers, including new home monitoring solutions
- **Trust:** our customers rely on us to deliver quality products on time - every time. Our experience, strong IPTV technology focus and heritage give us the capability to work across a wide range of deployments
- **Value:** “total cost of ownership” – the combination of reliability, compliance, hardware and software quality – is one of our clear differentiators and highly valued by our growing customer base
- **Insight:** our global deployment experience – and extensive in-depth ecosystem partnerships – gives us unique insights into the challenges our customers face, providing specialist advice and support
