

DTA Direct Fulfillment

Eliminate Truck Rolls and Customer Activation Calls

Program Overview

Your customers receive their ordered DTAs directly from AMT which automatically activate when installed.

Benefits

- Reduce operational costs of freight, truck rolls, and activation calls
- Accelerate rollout by eliminating operational steps in deploying DTAs
- Improve customer satisfaction with auto activation that eliminates calls
- Direct fulfillment service included in the price of the DTA

How it works

- AMT stocks DTA kits ready to be shipped
- Custom kitting options are available
- AMT ships the DTAs directly to the end customer using Fedex Smart Post
- End customers self-install DTAs which automatically activate
- Direct fulfillment is only available with ARRIS DTAs

Customized information exchange

- AMT electronically receives your customer order information from you
- AMT returns DTA assignment data for upload into your billing system before customer receipt of shipment

"We didn't need to have a 24/7 staff and we saved a lot of time on packaging, sending, and delivering the boxes. We don't have the manpower for that without doing a lot of hiring."
Mike Lightfoot at Tri County.
