FEATURE	BENEFIT
DVR Functionality	The DRC800 adds keys: LIST, REPLAY and LIVE TV for direct access to this popular DVR features
HD Support	The DRC800 includes the ASPECT key for support of High Definition devices
Picture-in-Picture Support	The DRC800 includes keys for picture-in-picture support.
4 Device Remote	Greater control over consumer electronic devices in the home
Most up -to-date Universal library	With the proliferation of consumer electronics in the home, the DRC800 allows consumers control most of their entertainment consumer electronics with one remote. The DRC800 Universal library includes codes for TVs, VCRs, DVDs, DVRs, Audio Amplifiers, Tuners, Home-Theaters, TV/DVD combos and TV/VCR combos.
Mode Lights	This feature allows the consumer to know which device mode they are using when pressing a button
Volume Lock	Allows the consumer to lock the volume to a specific device (i.e.: TV, Audio component, STB). Great feature for home theaters
Step and Set (Enhanced Search Method)	Allow consumers to set up consumer electronic devices without a 4-digit code. The DRC800 will scan codes until it finds the appropriate code. This feature very useful for consumers that lose their user guide and can decrease customer calls to the MSO
Memory retention	Feature will allow codes to be held in memory for a period of time after batteries are pulled out of remote or lose power
Blink Out	Allows customers to identify the code of a specific device that is programmed into the DRC800. Helpful in conjunction with Step and Set feature
Interactive Program Guide	The DRC800 supports various commercially deployed electronic program guides (EPG)
Parental Control access	Thru the EPG customers can easily access a program's guide parental control feature
Favorite Channel	After customers program their favorite channels thru the EPG the y can easily jump from favorite channel to favorite channel just by pressing the "fav" key on the DRC800
Last	Customers can go back to the last channel they were watching easily and conveniently by just pressing the "last" key on the DRC800. Also an aide for navigating in EPG aplications
Help	Customers can use the "help" key any time while using their EPG. This allows customers toeasily learn about a specific feature by themselves reducing the number of customers that call the MSO for help
Info	Customers can get information about a program they are watching or want to watch just by pressing the "info " key on the DRC800
Customizable	The DRC800 reserves three keys "A, B and C " for MSO customization and reserves space for MSO logo
