

**REMOTE CONTROL YOUR VIDEO AND AUDIO WORLD.  
TURN ENTERTAINMENT INTO AN EXPERIENCE**

**MOTOROLA**

**Product Overview**

The Motorola MXv4 makes it easy for your customers to enjoy their Home Entertainment Experience. The MXv4 controls up to four different IR-equipped Video and/or Audio devices. Your customers can easily program the MXv4 to control the devices that match their entertainment component needs. With a simple push of the on/off button, users can quickly select the specific items they want to add to the MXv4 control library.

With its sleek, piano-black finish and its ergonomically placed buttons, the MXv4 takes style to the next level. From form to function, the MXv4 is a remote for the sophisticated consumer. The in-home entertainment experience is driven by the remote control; the MXv4's elegant design lets your customers begin their experience with a bang.

**Effortless Setup**

**UEI SimpleSet for Top TV Brands:**

Set up the MXv4 for popular TV brands in three easy steps.

**Step 1:** Press and Hold SETUP until the mode key blinks twice. 

**Step 2:** Press the TV Mode Key 

**Step 3:** Press a Digit Key to select your TV brand

**Simple Code Search:**

Program the MXv4 for any brand in three easy steps by following the setup instructions, which are printed on the battery door and in the manual.

**Volume Lock:** VOLUME CONTROL

functions are unlocked to all devices, but can be locked to TV, STB, or Audio with a fast, three-step process.

**Video Input Lock:** Prevent accidental input switching on other devices by locking the VIDEO INPUT controls to a single device.

**Ease of Use**

**Less Keys, Less Confusion:** The MXv4's streamlined design provides a simpler user interface compared to a typical 60+ key cable remote control.

**MODE LEDs:** The MXv4 includes LEDs under each mode key, so the user is always aware of what device the remote is currently controlling.

**Simple to Support**

**Less Keys, Less Confusion:** With UEI QuickSwap, one remote control SKU supports up to three different STB configurations. A simple key-press combination quickly sets the remote to one of four pre-designated STB configurations.
