

UR4-A803

4- FUNCTION AMINO IPTV-COMPATIBLE REMOTE CONTROL

AMINO is a leading provider of IPTV (Internet Protocol Television) technology and products for the delivery of digital TV and on-demand content over broadband networks. IPTV is a new way of delivering television services and is one of the most rapidly expanding content distribution channels today. IPTV gives cable, satellite and telecom operators the opportunity to generate additional revenues by providing new services over their existing networks.

The PalAmino-4 (UR4-A803) is a 4-function remote control designed to operate the complete range of AMINO Set-Top Boxes, plus the majority of TVs, VCRs, DVDs and Audio components on the market. This user-friendly remote enables your subscribers to fully control and enjoy AMINO IPTV broadcast and on-demand television programs and movies, games, interactive services, and internet access provided direct to their homes via cable, satellite or telephone networks.
