OWN THE CONNECTED HOME

Amino is a world leading IPTV innovator and now offers a range of entertainment and home monitoring solutions designed to help you own the connected home.

IPTV/OTT set-top box range

A140

High Definition IPTV/OTT Set-Top Box (STB) with MPEG-2 and MPEG-4 Support

Key Features

- “Carrier class” Wi-Fi capability- add a simple USB dongle for high quality HD content delivery around the home
- HTTP Live Streaming (HLS) with trick play and record- delivering a great uninterrupted PVR-like user experience even in low latency

A540

High Definition IPTV/OTT Set-Top Box (STB) with integral PVR and MPEG-2 and MPEG-4 support

Key Features

- “Whole home” PVR capability- uses the A540 to deliver content to multiple Amino devices and TVs, adding value to your service offering
- HTTP Live Streaming (HLS) with trick play and record- delivering a great uninterrupted PVR-like user experience even in low latency networks

H140

High Definition Set-Top Box for Guest Room Applications

Key Features

- HTML5 audio and video tags to support the H.264 codec in .flv and .mp4 formats
- Adaptive streaming technology is also available with HTTP live streaming support
- All STB functions can be controlled from a browser using the Amino JMACX system

TIMESHIFT

Pause live TV solution for Amino’s range of non-PVR STBs including the Amino A140

Key Features

- Conveniently pause, rewind and resume live TV
- Intelligently buffers video for up to an hour
- Durability is optimized for write-intensive, pause live TV applications
- Flexibility set for ‘pause on demand’ or ‘continuous buffering’

High quality HD video grade dual band Wi-Fi solution with Celeno OptimizAIR™ technology

Key Features

- Dual band- 2.4 GHz and 5 GHz networks
- 3x3 MIMO
- Connect to standard access points
- Celeno OptimizAIR™ technology

USB Wi-Fi Solution

Value, innovation and insight – the Amino difference

amino

With over four million devices sold, our award-winning IPTV/OTT solutions are deployed worldwide by major global, regional and local operators and service providers. They rely on us for our deep IPTV technology expertise, global ecosystem partnerships and our proven deployment experience. Underpinning our quality IPTV solutions – recently acknowledged as global leader in price and performance – are a clear set of values:

- **Innovation:** with a number of industry “firsts” – and awards - we constantly seek new ways to develop and deliver powerful new IPTV solutions to our customers, including new home monitoring solutions
- **Trust:** our customers rely on us to deliver quality products on time - every time. Our experience, strong IPTV technology focus and heritage give us the capability to work across a wide range of deployments
- **Value:** “total cost of ownership” – the combination of reliability, compliance, hardware and software quality – is one of our clear differentiators and highly valued by our growing customer base
- **Insight:** our global deployment experience – and extensive in-depth ecosystem partnerships – gives us unique insights into the challenges our customers face, providing specialist advice and support
