

ScreenBeam® 1000 EDU

ENHANCED WIRELESS DISPLAY AND COLLABORATION

ScreenBeam®

Designed for schools requiring a high performing 4K wireless display and collaboration solution. Combining local Wi-Fi mode connectivity with industry standard Miracast™, and network infrastructure connectivity or network bridge functionality, delivers unparalleled deployment options for teacher and student wireless presentations.

Windows and macOS users can share content in both duplicate and extended screen modes, and support for interactive touch displays and Windows Ink brings collaboration to the front of room display. Chromebook users can now also share content natively without apps.

Includes ScreenBeam Classroom Commander providing both wireless display and student device orchestration for up to 50 Windows 10 student devices, without taxing the school's network or requiring additional servers. ScreenBeam 1000 EDU delivers an affordable, easy teacher and student experience, with advanced technology to provide simplicity and scalability for deployment and management.
