

Headend Project Services

Future proof your technology
investment with
AMT TECHNICAL SERVICES!

AMT Technical Services support construction, maintenance, and upgrade projects in your headend, central office, inside plant, outside plant, and premise.

Our project approach begins with understanding technical specifications, customer standards, and requirements. We source projects from our pre-qualified technical staff, and indoctrinate them to the particular plan. We then monitor and quality assure work throughout the project, ensuring deliverables meet expectation.

AMT helps our customers with:

- Video and Data Services
- Analog to Digital Video Transition
- Video Bandwidth Reclamation
- Data Bandwidth Increases
- Optimizing Signal Levels
- Headend Best Practices
- Turnkey Solutions

AMT offerings include:

- Survey and Assessment
- CMTS & DOCSIS Deployments
- QAM, IPTV, and OTT Video Upgrade
- Headend Rewiring
- Technical Training
- Staff Augmentation

Advanced Media Technologies, Inc. (AMT) is the leader among CATV and High-End Broadband Electronic Equipment Providers, and is one of the largest distributors of its type in the world. AMT distributes numerous brands of high-tech electronics for the telecommunications industry and provides engineering and professional services to help deliver broadband solutions. Located in Deerfield Beach, Florida, AMT is a wholly owned subsidiary of ITOCHU International, the North American subsidiary of ITOCHU Corporation, one of Japan's leading companies.

AMT Mission Statement: **"Making the customer experience in working with AMT far superior to anything offered by our competitors or vendors."**
