

Wi-Fi Extender DeskPod WF-808

Product Datasheet

VERSION 3.2

Partnership for the Next Generation Broadband Solution

Notice:

We have the sole right to make corrections, modifications, enhancements, improvements, and other changes to its products and services at any time and to discontinue any product or service without notice. We have the final interpretation.

■ Overview

WF-808 product is designed to extend Wi-Fi network connectivity at home. With WF-808, the customer can set up a smart Wi-Fi home network, which provides self-configuring, self-healing and self-managing capabilities. It dynamically selects the most reliable Wi-Fi channel and path, enables fast and seamless handoffs for end-users.

WF-808 supports dual-band 802.11ac. 2.4G radio supports 2x2 802.11b/g/n MIMO. 5G radio supports 4x4 802.11a/n/ac MIMO. It can provide up to 2Gbps aggregate Wi-Fi access speed. WF-808 can meet the requirements for the high-speed real traffic and entertainment, such as HD video, video game and VR.

WF-808 integrates Opensync™ control plane launched by Plume. Opensync™ creates a multi-industry, open service curation, delivery, management and support framework. WF-808 is able to operate on Plume cloud just like any Plume product. This allows for curation, rapid and scalable delivery, comprehensive back office management, and enhanced support of cloud-based services to the consumer.

End-users add WF-808 to their Plume account using only the Plume Mobile App, it is also managed by the Plume Mobile App, making it much easier for the end-users to set up their Wi-Fi network.

■ Key Features

- Desktop placement
- 2.4GHz 2x2 802.11b/g/n
- 5GHz 4x4 802.11a/n/ac
- WPA/WPA2-PSK(AES)
- BLE 5.0
- 6 x Integrated Wi-Fi antennas
- 1 x Integrated BLE antennas
- 1 x GE RJ45 LAN
- 1 x Status LED (multi-color)
- 1 x AC/ DC power supply
- Supports Opensync™ control plane
- Integrated with Plume Cloud management
- Integrated with Plume mobile management application (Android and iOS)

Please download HomePass App using the following Plume QR code:

■ **Application Scenario**

- Three WF-808s set up the mesh network. One operates as the gateway and the other two as Wi-Fi extender.

- WF-808 interoperates with Plume SuperPod to set up the mesh network. SuperPod works as the gateway and WF-808 works as the Wi-Fi extender.

	Client information <ul style="list-style-type: none">- Status- Online time- IP address- MAC address- Channel
	Network statistic chart <ul style="list-style-type: none">- Bandwidth usage- RSSI- Channel congestion- Event
	Utilities <ul style="list-style-type: none">- Reboot device- Upgrade remotely- Speed Test (under development)
Mobile App Management	Device discovery
	Add/ Delete the device
	Configure SSID
	Configure password
	Auto upgrade
	Antivirus (under development)
LED	Green Solid: Device power on.
	Blue Blinks: Device is connecting to the Cloud.
	OFF: Device has been connected to the Cloud.
	Blue Double Blinks: Network optimization in progress or locate device.

■ Specification

Item	WF-808
Dimension (D x H)	82mm (Diameter) × 100mm (High)
Weight	280g
Installation	Desktop placement
LEDs	1x Status LED (multi-color)
Interface	1 x GE RJ45 LAN 1 x DC jack, support USB type-C DC 5V in
Input Voltage	+5V/ 3A
Power consumption	< 10W
Environmental Specification	
Temperature	Operation: 0°C ~ +40°C Storage: -40°C ~ +85°C
Operating Humidity	5% ~ 95% (non-condensing)
Elevations	86kPa ~ 106kPa altitude
Dustproof and Waterproof	IP20
Safety	The device compliances with: <ul style="list-style-type: none">• IEC 62368-1:2014 (Second Edition)+A11: 2017• UL 62368-1, 2nd Ed, 2014-12-01 (Audio/video, information and communication technology equipment Part 1: Safety requirements)• CAN/CSA C22.2 No. 62368-1-14, 2nd Ed (Audio/video, information and communication technology equipment Part 1: Safety requirements)• FCC
