# ABOUT

**Advanced Media Technologies, Inc.® (AMT)** is the innovation and performance leader among high-end Broadband equipment suppliers. Unsurpassed quality and uncompromising standards of performance, reliability and service, have made AMT's equipment an integral component of major Multiple System Operators' headends and networks in the United States, Latin America, and among entertainment and multimedia content delivery companies around the world.

The strategic focus of **Advanced Media Technologies, Inc.®** is the supply of high-performance products from many well-known manufacturers, targeting emerging technology applications in broadband and broadcast, including managed WiFi, FTTx, OTT, IPTV, and HDTV products. Also, AMT's Engineering and Professional Services delivers your complete broadband end-to-end solution.

A corporate culture of new technology development has kept AMT at the forefront of RF transmission and satellite reception technology, and the hardware supplier of choice among leading content providers. The performance and quality of AMT products has become synonymous as industry benchmarks for satellite communications, system integration, and turnkey Broadband Network (HFC/PON/PCO) construction and plant maintenance.

Located in Deerfield Beach, FL, **Advanced Media Technologies, Inc.®** is a wholly-owned subsidiary of ITOCHU International. ITOCHU International, Inc. is the North American subsidiary of ITOCHU Corporation, one of Japan's leading companies. With operations in over 80 countries covering a broad range of industries, ITOCHU's revenues place it among the world's largest corporations of any type.
